From Symes & Co., Pharmaceutical Chem ists, Medical Hall, Simia, January 5, 1880. To J. T. Davenport, Esq., 33, Great Russeil Street, Bloomsbury, London. Dear Sir, We embrace this opportunity of congrainlating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has carned for itself, not only in Hindostan, but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brants, we are sorry to say, are now relegated to the native barsars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitium of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhea and Dysentery. Spasms Cramps, Neuralgia, the Vomiting of Pregnaney, and as a general sedative, that have occured under our personal observation during many years. In Cholerate Diarrhea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power.
